

# *Super Polymold*

## COMPANY PROFILE

# About us

- Super Polymold Company Limited was established on 22 October 2015
- Registered Capital 60,000,000 Thai Baht
- Thai owned company
- Factory shop area 10,000 square meters
- Number of employees 60 persons
- ISO 9001:2015 Quality management systems Certified

# Our Vision

**Super Polymold**

**“The Precision Behind your Performance”**

**Mission:** To elevate manufacturing from a transaction to a solution. We combine advanced engineering with high-precision tooling and production services to solve your most complex process challenges, ensuring your products perform without compromise.

# Process Capabilities

1. High precision CNC Machined Parts tolerance control within  $\pm 3$  microns
2. Mold Design and Mold Making
3. Mold repairing and maintenance
4. Rapid Prototyping
5. Plastic Injection Molding Parts
6. Surface Grinding
6. Laser Welding
7. Super Drill
8. Radian Drill
9. Milling

**Super Polymold**

# Machine Highlights

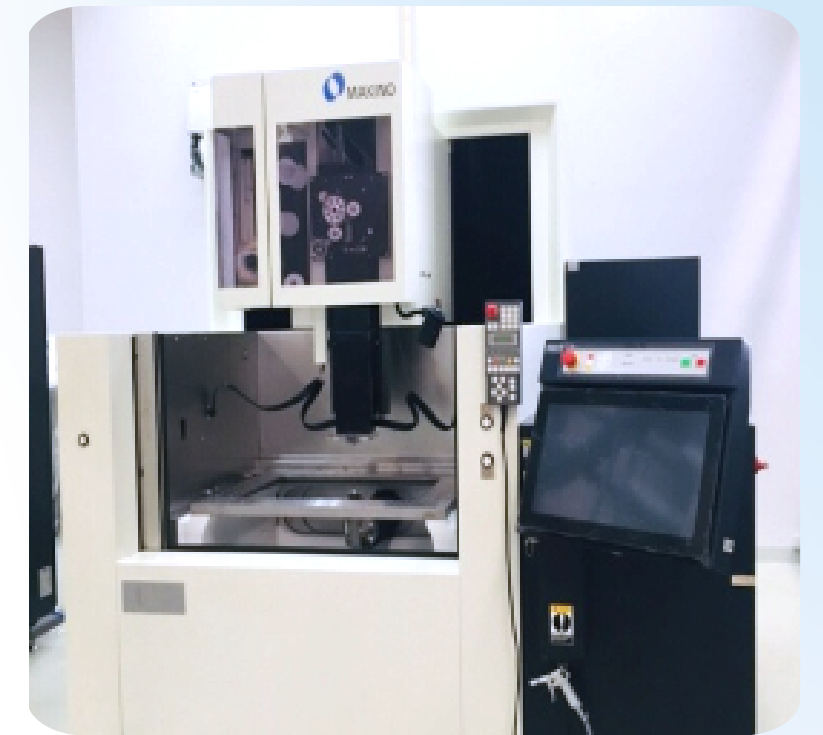

Makino PS105  
3 Axis CNC

Makino F3  
3 Axis CNC

Makino EDGE3i  
EDM

Makino U6  
WEDM

**Super Polymold**

# Other Machines

- CNC Lathe Miyano BNA-4232
- Surface Grinding machine
- Laser Welding machine
- Super Drill
- Radian Drill
- Manual Milling machine
- Manual Lathe machine

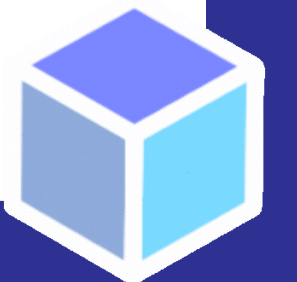

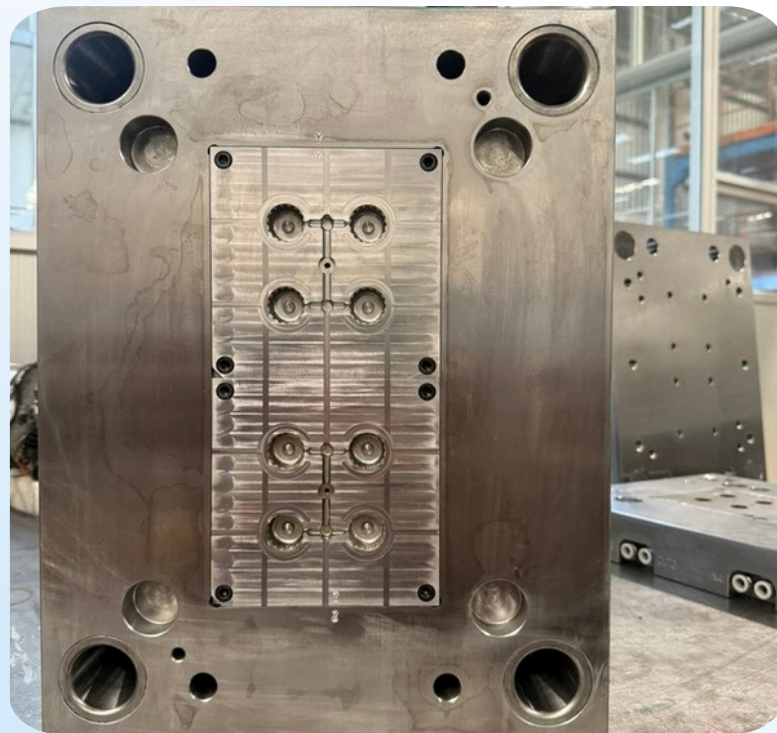

# High Precision Technology

At Super Polymold Co., Ltd., we use Haimer shrink-fit holders and a Haimer tool presetter to deliver high-precision machining. This ensures every part meets customer requirements.

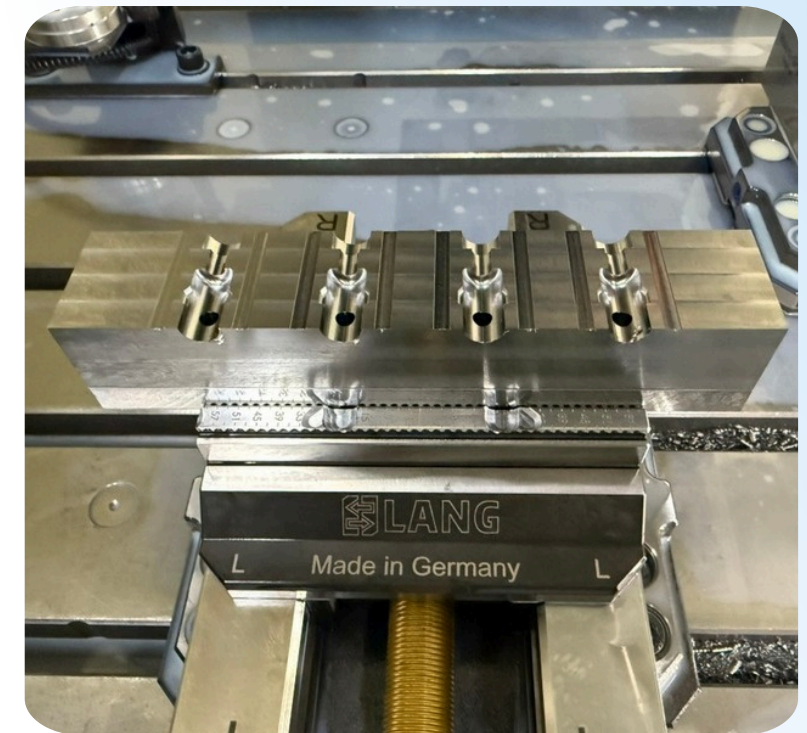

# Our Competencies

Injection Mold

One-Stop  
Injection Shop  
Service

High Precision  
Machined Parts

**Super Polymold**

# Mold Services

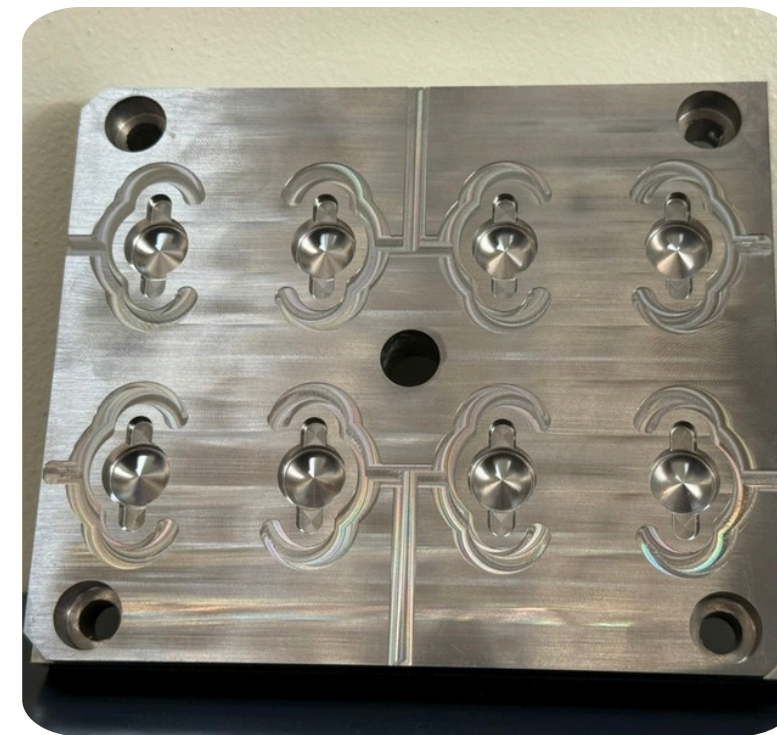

We offer full range of service from rapid prototyping, mold design, new mold manufacturing mold repair and mold maintenance as well as having in-house injection machines available for trials. With our own facilities we are able to ensure that we delivery excellent quality injection mold with high precision final part even with tight delivery time.

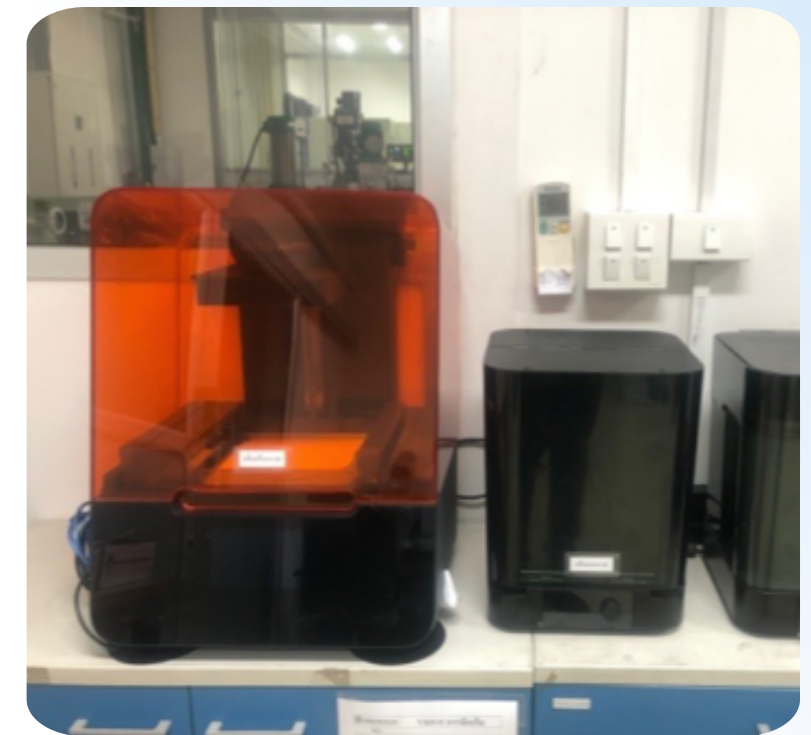

Mold repair and maintenance

Product and Mold Design

New Mold Manufacturing

Rapid Prototyping

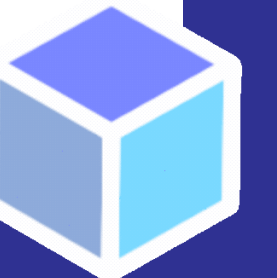

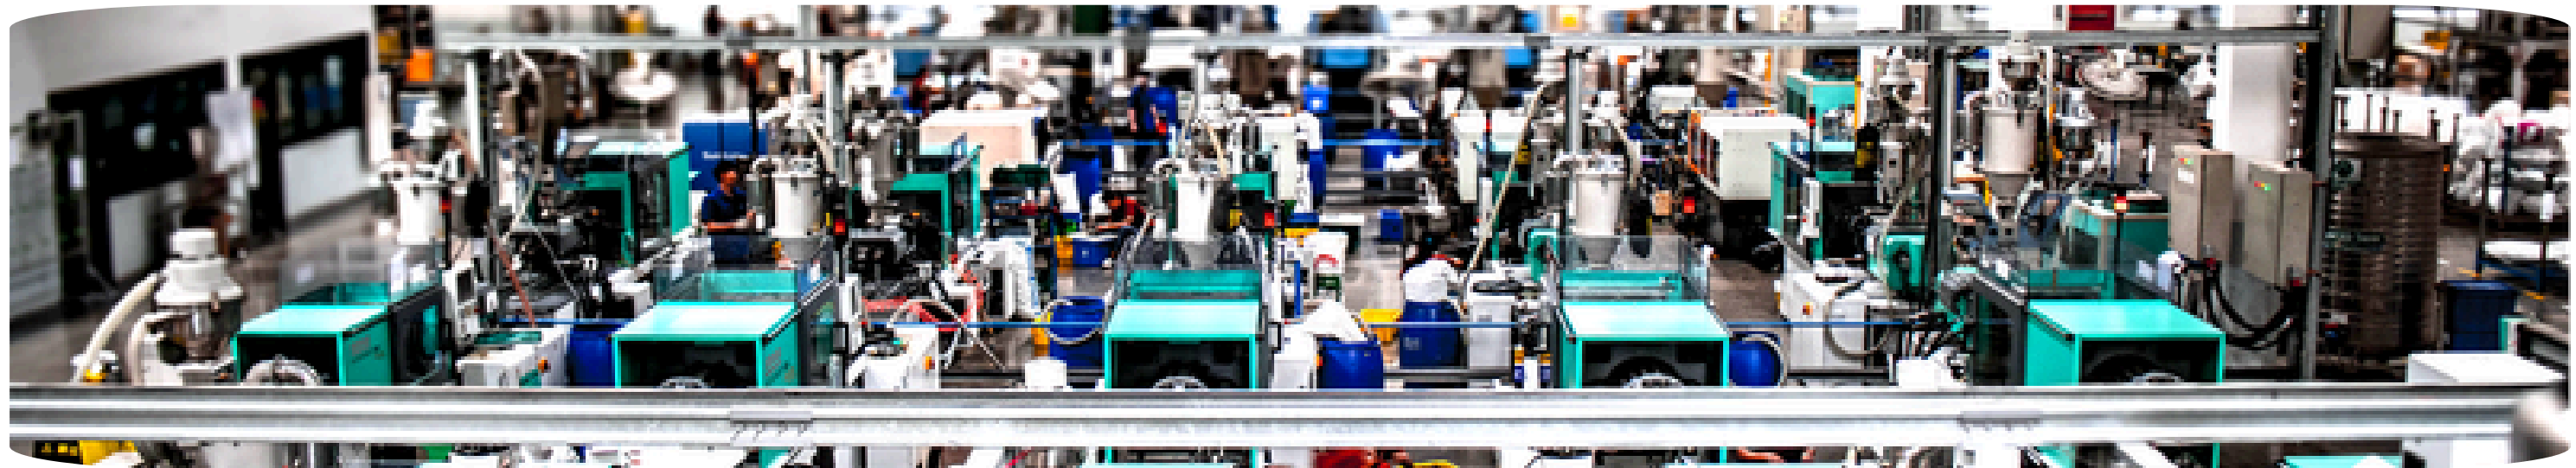

# Injection Machines

---

17 Arburg Injection machines (50T-150T)

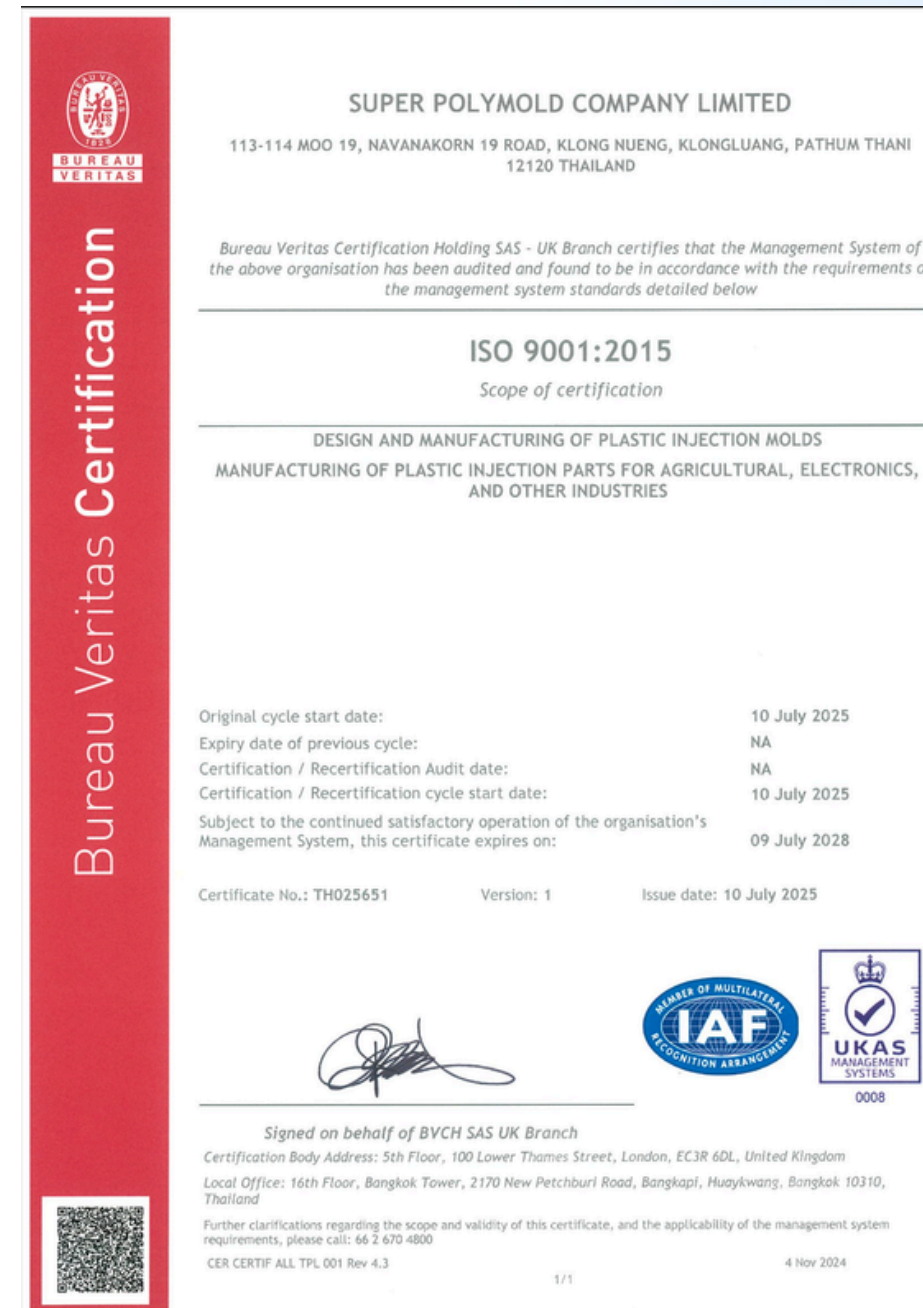

10 Chinese Injection machines (100T-250T)

# Certification

## Super Polymold

Super Polymold holds ISO 9001:2015 certification for Design and manufacturing of plastic injection molds and manufacturing plastic injection parts.
